Poem of the week

Heavens Alight

By Habib Tabaja

She painted fire across the skyline and
beckoned me to watch
The immaculate brilliance of a thou-
sand burning colours in the clouds;

She stood on that hill, in a bolt of blaz-
ing gold, under the shades of evergreen,
She thought I had found my solace, but
the firmament withdrew in silence,
Her resplendence reflected in the
throes of the smouldering sky;

She painted fire across the skyline, and
her brush drew ink from my veins,
The heavens set ablaze in her name,
and flames rained down upon my
kingdom;

She painted fire across the skyline and
beckoned me to watch
As I gathered the fallen ashes from my
oppressed domain.

Embracing the Wintery Weather

The days are only getting colder and it seems like this is just the start of winter for us. So how can we embrace the cold winds and learn to love the winter season? Let READ share with you some lovely tips that might just change your mood this season.

By Hanadi Dawara

Hobbies

Have you tried running or jogging in the cold weather? Trust us that it's an entirely different experience. Try picking up a hobby you left off like playing the guitar or piano.

Purchase those books you've wanted to read for a long time. Wrap yourself up on the sofa or bring it along with you in a cafe.

Recipes

Lounging in the sofa or the bed all day is very tempting. Spice up your mornings by making your own healthy juice or make your own hot chocolate. Creating simple recipes is also a good idea like mug recipes or simple pastries. You can choose whatever you'd like to keep yourself in the mood.

Fashion

Just because it's winter does not mean you should just stay at home, now is the great time to check out those cafes you've always wanted to try out. This also gives a chance for you to mix up your winter wardrobe.

Take advantage of what you have and use bold colourful colours to contrast the gloomy wintery weathers.

You want to be fashionable? Ok, but leave your suede handbag or shoes at home during a rainy day. Be careful of the fabrics that you are wearing or using during these types of weather. Be comfortable and smart about choosing your outfit for the day.

Decoration

- If you are staying at home during a rainy day, try to change the layout of the room by adding some soft wool throw on the sofa or change the covers of your cushions with darker colours.

- Get your game one by accessorising. Change up the way you decorate your house, move things here and there to give it a whole new perspective.

- To change the moods of the house simply light some scented candles or you can also try to follow the Arabic culture and use Bakhoor in the corner of your rooms.

- Winter does not necessarily mean a barren environment; you can trick your mind by placing small green plants throughout the house.

Are you standing in the way of your CAREER SUCCESS

Every December, we tend to make the same New Year's resolutions such as changing careers, starting our own thing, or improving our current situation. But for many of us, things don't seem to change and the situation seems to spiral downwards. It could be that you've always blamed another person or the situation itself instead of taking a closer look at yourself. In most cases, you can be unconsciously preventing your own success. You just don't realize that you have been holding yourself back from doing great things. Akhtaboot is here to highlight the top reasons why you might be standing in the way of your own career goals.

You Are Stuck in the Comfort Zone

Most people tend to lean toward the familiar. This is not a bad thing as it actually gives you a sense of emotional security with your decisions and minimizes risk and stress. But when your comfort zone is standing in the way of your career advancement, you need to figure out a way to break out of your safe place. This doesn't mean that you need to change your entire life; it can simply mean that you need to break the routine and take on new responsibilities and risks. The area outside your comfort zone is simply a learning zone. When you learn new skills or gain different experiences, you are simply stretching the boundaries of your comfort zone out to include that new area.

You Don't Have Clear Career Goals

People manage their careers in one of two ways; they either float through life or they make things happen. Those who make things happen know how to set goals. Career planning never stops and you will probably reassess your career plan several times during your working life. In today's business world the typical person joining the work force will have as many as five to six different jobs by the time he or she retires. People continue to change and evolve throughout life, so does

the job market. Once you've clearly identified what you're looking for in a career, you will find that there are a number of paths that match your skills. Your goal at this point should be to take the next best step.

You Attitude is Negative

Negative attitude at work can have a bad influence on your career because it takes your focus from work and makes you part of the culture of negativity in your company. But since it's not possible to simply eliminate negative feelings, the only thing you can truly control is how you choose to react to and participate in any situation at work.

You Fear Rejection

Anytime you share new ideas at work, you run the risk of being rejected. Fear of rejection may be the biggest obstacle to getting out of your comfort zone to bigger and better things. But who doesn't fear failure? We all do to a certain point. But it's important to always push yourself to go above and beyond your limits so you can learn new things about yourself and things you never thought you were capable of doing. It is never easy to make changes, but you need to be willing to take risks and not worry so much about what other people think. Remember that if you have been turned down a lot, it only means that you have tried a lot.

Give Life, Give Blood

January is National Blood Donor Month and while other body tissues can also be donated, blood is needed on a day to day basis by large numbers of patients. Every two seconds, someone in the UAE is in need of blood, and nearly 25 percent of us will require a blood transfusion at some point in our lives. Sharing your bloodline is a considerable gift: Each donation can save up to three people. If you're considering donating blood, here are some required tips for you.

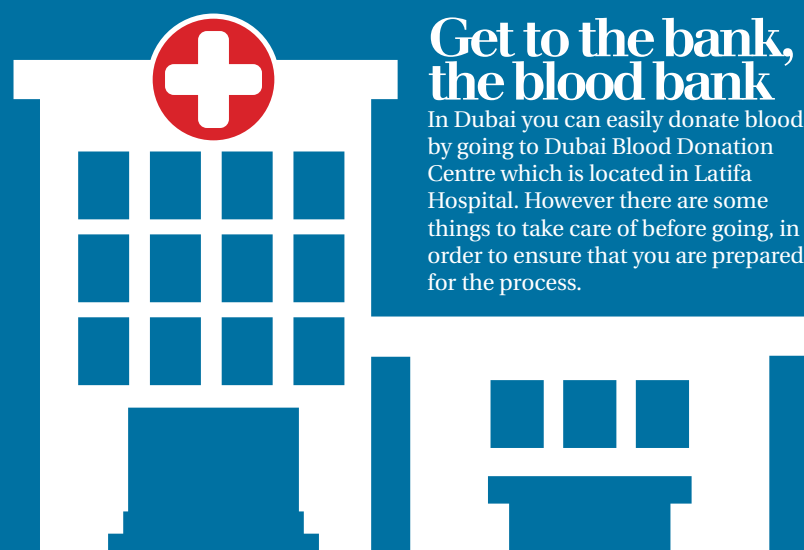

Blood type compatibility

Just like personalities, not all blood types get along. This is because each type of blood has its own antigens, which sit on the cell's surface and tell the body's immune system whether the cell is foreign or familiar. The immune system creates antibodies to fight off the antigens that don't match up, which helps the body to protect itself from foreign invaders.

Blood type compatibility

Even blood banks have to be picky. The standard eligibility requirement for blood donation requires donors to be healthy and at least 17 years old and weighs no less than 110 lbs. Other requirements includes not being allowed to donate if you are sick, pregnant or has undergone piercing or gotten a tattoo within the last year.

Get to the bank, the blood bank

In Dubai you can easily donate blood by going to Dubai Blood Donation Centre which is located in Latifa Hospital. However there are some things to take care of before going, in order to ensure that you are prepared for the process.

Post-Donation

- Lie on the bed for at least ten minutes.
- Leave bandage on for 4 hours and replace the bandage for another 4 hours.
- Increase your fluid intake for the next 24 to 48 hours.
- Avoid strenuous physical exertion with the donation arm for about 24 hours.
- Eat well balanced meals for the next 24 hours.
- If you feel light-headed, lie down until the feeling passes.
- If bruising or swelling appears under the skin apply a cold pack to the bruised area during the first 24 hours, then apply warm, moist heat intermittently.

Pre-Donation

Avoid smoking

Drink plenty of fluids.

Eat a good meal

Have a good night's sleep

Avoid alcohol

Extra tips:

Dress for ease - Make sure there's easy access to the underside of your arm, particularly at the elbow.

ID's please - Bring a driver's license or any other identification card to present at registration.

Make 2015 your healthiest year yet

Dr. Jennifer C. Blake
Consultant Family Medicine Physician
Medical Director
Al Zahra (Pvt.) Medical Centre, Dubai

Do you have your new year's resolution?

Strive to make 2015 your healthiest year yet. Good health starts with the basics – regular exercise, maintain ideal body weight, healthy eating choices, and regular healthcare checkups. The key to achieving and maintaining a healthy lifestyle starts with prevention – identifying a potential problem before it turns into a serious medical condition. For instance, preventing obesity can decrease your risk of developing diabetes (high blood sugar). High blood sugar and high cholesterol levels may not have any symptoms in the early stages. A simple blood test can check for these conditions. Your Primary Healthcare Provider can help you achieve your goals of healthy living by discussing anything from working on a weight loss plan to helping you achieve normal blood pressure to educating you regarding ways to prevent catching the common cold. Make this year's resolution count, and start with a visit to your Primary Healthcare Provider.

Does every family member need routine healthcare?

Absolutely. Healthy habits start from infancy and continue throughout your lifespan. Encourage regular well baby and well child checkups. Regular checkups do not stop there though. Prevention and screening continues throughout adulthood. Even if you feel fine, regular checkups are needed to check for high blood pressure, high cholesterol, and diabetes. Routine care, depending on age, includes dental exams, eye exams, immunizations, prostate check, mammogram, pap smear, and colon health screening. Encourage a visit with your Primary Healthcare Provider to discuss how often you should have your screening.

Al Zahra (Pvt.) Medical Centre, Dubai can help you meet all of your Healthcare needs from Pediatrics to Geriatrics and everyone in between. We are conveniently located adjacent to Emirates Towers Metro Station. The Doctors and staff of Al Zahra Medical Centre are available seven days a week to provide healthcare with the Healing Touch. Strive to make 2015 your healthiest year yet!

The Maldives:

An archipelago of wonder

Indulge yourself in this tropical paradise, which boasts white sands, blue skies and crystal-clear waters.

By Wissam Aoun

ISLAND NORTH OF ATOLL

It's everybody's dream to just let go of all the worries in our lives and set our minds free by escaping to a natural paradise. To live the life of an adventure, even if just for a short period, is a desire like no other. What makes your journey even double the fun is that you're heading to the one and only Maldives, where the sky is blue and the water so calm it could be glass. There's so much you can do in the Maldives – things you can't do anywhere else in the world. This natural wonderland is a by-word for luxury and romance, and a paradise for diving enthusiasts and sun seekers alike.

You're probably a fan of the sea if you've made it to the Maldives, so make sure you visit the Diving Bluetribe Moofushi – possibly the best diving experience of your life. Here, you can explore the unique and beautiful water world of the Indian Ocean. You could get yourself trained for scuba diving by their trainers in order to make the best out of your diving experience. Then, all you have to do is get your diving gear and take

a dip in the clear blue waters.

Although the Maldives is renowned for its magical world of underwater, you should still visit some historical structures in the country, such as the Hukuru Miskiy, the oldest mosque in the country from 1656. It's a fantastic structure made from coral stone with beautiful decorations. The interior is just wonderful, housing fine lacquer work and elaborate woodcarvings. Just make sure you're well dressed and you'll have the opportunity to witness history at its finest.

Time to go back to what you really came for, the heavenly clear blue sea. Make sure you go on a Maldives Dhoni Cruise, where you get the chance to cruise through some of the world's most beautiful islands. You will be amazed as you discover isolated beaches, explore small fishing villages, and swim and snorkel the vibrant coral reefs of the beautiful Indian Ocean. You can witness the turquoise lagoons and perfect beaches that make these islands famous.

ARAAISH

Bollywood fashion arrives in Dubai.

By Mae Cabigas

It's only the first month of the year and Dubai has already seen a lot of events and festivities, but that's just the start. Pretty soon the fashion events will be upon us and what better way to kick it off than in a glamorous and affordable way. So get yourselves ready as Bollywood fashion comes to town. A whole new take on a fashion exhibition, Araaish returns after a successful festive event back in September. This year they return bringing a lighter and affordable array of designers for us to choose from.

Introducing Araaish Prêt, style savvy shoppers can look forward to getting their hands on a range of both Eastern and Western ready to wear clothing and accessories by brands such as Reynu Tandon, Archana Kochhar, Sounia Gohil, Trupsel, Aquamarine, and Aura by Noreen Dhanani, to name a few. Taking place on the 30th Jan 2015 at the Oberoi Hotel, the key event coordinators of Araaish, Sharmilla & Shaan Khanna says that, "We had a very successful season last year with more than 1500 people walking through our doors and we are expecting a great crowd again this season as we have a new set of fresh exciting ready to wear designers with extremely well priced collections."

According to the co-founder of Araaish, Mana Shetty, she mentions that, "From an exhibition perspective ARAAISH brings together ace designers & emerging talent from across the world to Dubai for an exclusive 1 day shopping experience that has designers especially curating their new prêt line for affordable fashion - accessible to all." Furthermore she mentions that Araaish Prêt would be "promoting young designers who will showcase their Eastern &

Western Prêt Wear along with select Lifestyle & Home Décor specialists which is affordable fashion for everyone." The event will also introduce the Araaish Courtyard where "shoppers can spend their day in a very shop - eat - drink - chill environment."

Beyond the glamour, Araaish also has a very good non-profit model at its heart as well. Araaish is a property of SAVE The Children and supports P.R.I.D.E. India, a Non-Governmental Organization working towards empowering marginalized rural communities to lead lives filled with dignity and self-respect. According to Ms. Shetty, "This NGO, founded by my mother Ms. Vipula Kadri is really close to my heart. We are striving to carry on her legacy in the field of social development in India, and appreciate the support that we have been fortunate enough to receive. The wonderful people who support us don't just donate, they help us change lives." Araaish, now in its 8th season, is an unparalleled event concept with a non-profit model at its heart and it's a great way to start the fashion season.

Cricket:

Junaid Khan might be called out for the World Cup after withdrawing from Pakistan's squad for two one-day internationals against New Zealand. The 23-year-old was advised to remain at rest for the upcoming two weeks in order to complete his recovery from a hamstring injury. However if Junaid is to recover in time, he will join the World Cup squad.

Boxing:

Julio Cesar Chavez is still aiming for a battle with Carl Froch after the Briton pulled out of talks over a money-spinning showdown due to a setback in training. Chavez will now fight Polish light heavyweight Andrzej Fonfara on April 18, however he is still forward for a chance to clash with Froch.

Golf:

Robert Allenby has withdrawn from the Humana Challenge in California as he is yet to complete his recovery after the 43-year-old was kidnapped, beaten and dumped in a Hawaiian park. "On the advice of my personal doctor I have decided to withdraw from this week's Humana Challenge. This will enable me to ensure I am fully recovered prior to rejoining the PGA Tour," he said.

Liverpool have managed to level the scoreboard against Chelsea after Raheem Sterling scored a superb second-half goal, meaning the Reds go into their Capital One Cup semi-final second leg with Chelsea with the scores level at 1-1. Chelsea took the lead 18 minutes into the match after Eden Hazard was brought down in the penalty area, before the Belgian landed the ball in the net. However Sterling scored the equaliser with a fantastic finish, keeping the battle between the two alive. Chelsea manager Jose Mourinho claimed that his side could have taken advantage had they put in more quality. The two sides will meet again for the return leg at Stamford Bridge on January 27.

A tough battle

Red Bull and McLaren are aware that they might face a difficult time to beat Mercedes in 2015. Mercedes triumphed in the 2014 Formula 1 Championship after Lewis Hamilton came in first place ahead of team-mate Nico Rosberg who came in second place. "I think it's going to be difficult to beat Mercedes, but we will definitely try," said McLaren boss Eric Boullier. Mercedes are expected to stay at the top of the table when the new season kicks off in Australia on March 15.

Technology

It's the start of a **new year** and everyone is **looking forward** into what **2015** would bring us. We're pretty sure everyone already has their eyes set on the latest gadgets, let READ share with you some of them.

Sony: pushing boundaries

We all deserve some time to relax and enjoy watching television. If you're in need of that, you're in luck because Sony has launched what it claims to be the world's thinnest 4K Ultra HD LED TV, making you enjoy that relaxation session to the max. The XBR X900C Series TV is only 5mm thick, thinner than smartphones like the iPhone 6. This TV has a screen of 3840x2160 (4K) resolution, not to forget that it runs Google's Android TV operating system, allowing you to stream video, play games and search through a remote using your voice. The XBR X900C Series TV gives consumers the privilege of doing what they enjoy on a smartphone or tablet, from their television.

The latest from Microsoft

Microsoft has announced its most affordable Lumias to date, the Microsoft Lumia 435 and Lumia 532 smartphones, offering the latest Windows Phone 8.1 capabilities at a really fair price. Both phones offer its users easier usage as they are on the go. Lumia users will be able to read, review, edit and share on the go with the full Microsoft Office suite, and easily manage work and personal correspondence on the fly and many more. You can also stay up-to-date with the best new features through regular Windows updates too. Like that's not enough, on top of all that you can capture photos quickly and easily with Lumia Camera right out of the box, and take, edit and share great selfies with the front-facing camera and Lumia Selfie app.

Launch into the Future

Toyota has once again re-imagined the future of mobility with its new hydrogen fuel cell vehicle – the Mirai – which was shown to the world during its launch in Japan. The Toyota Mirai uses hydrogen as fuel to generate electricity and achieves superior environmental performance with the convenience and driving pleasure expected of any car. This four-door

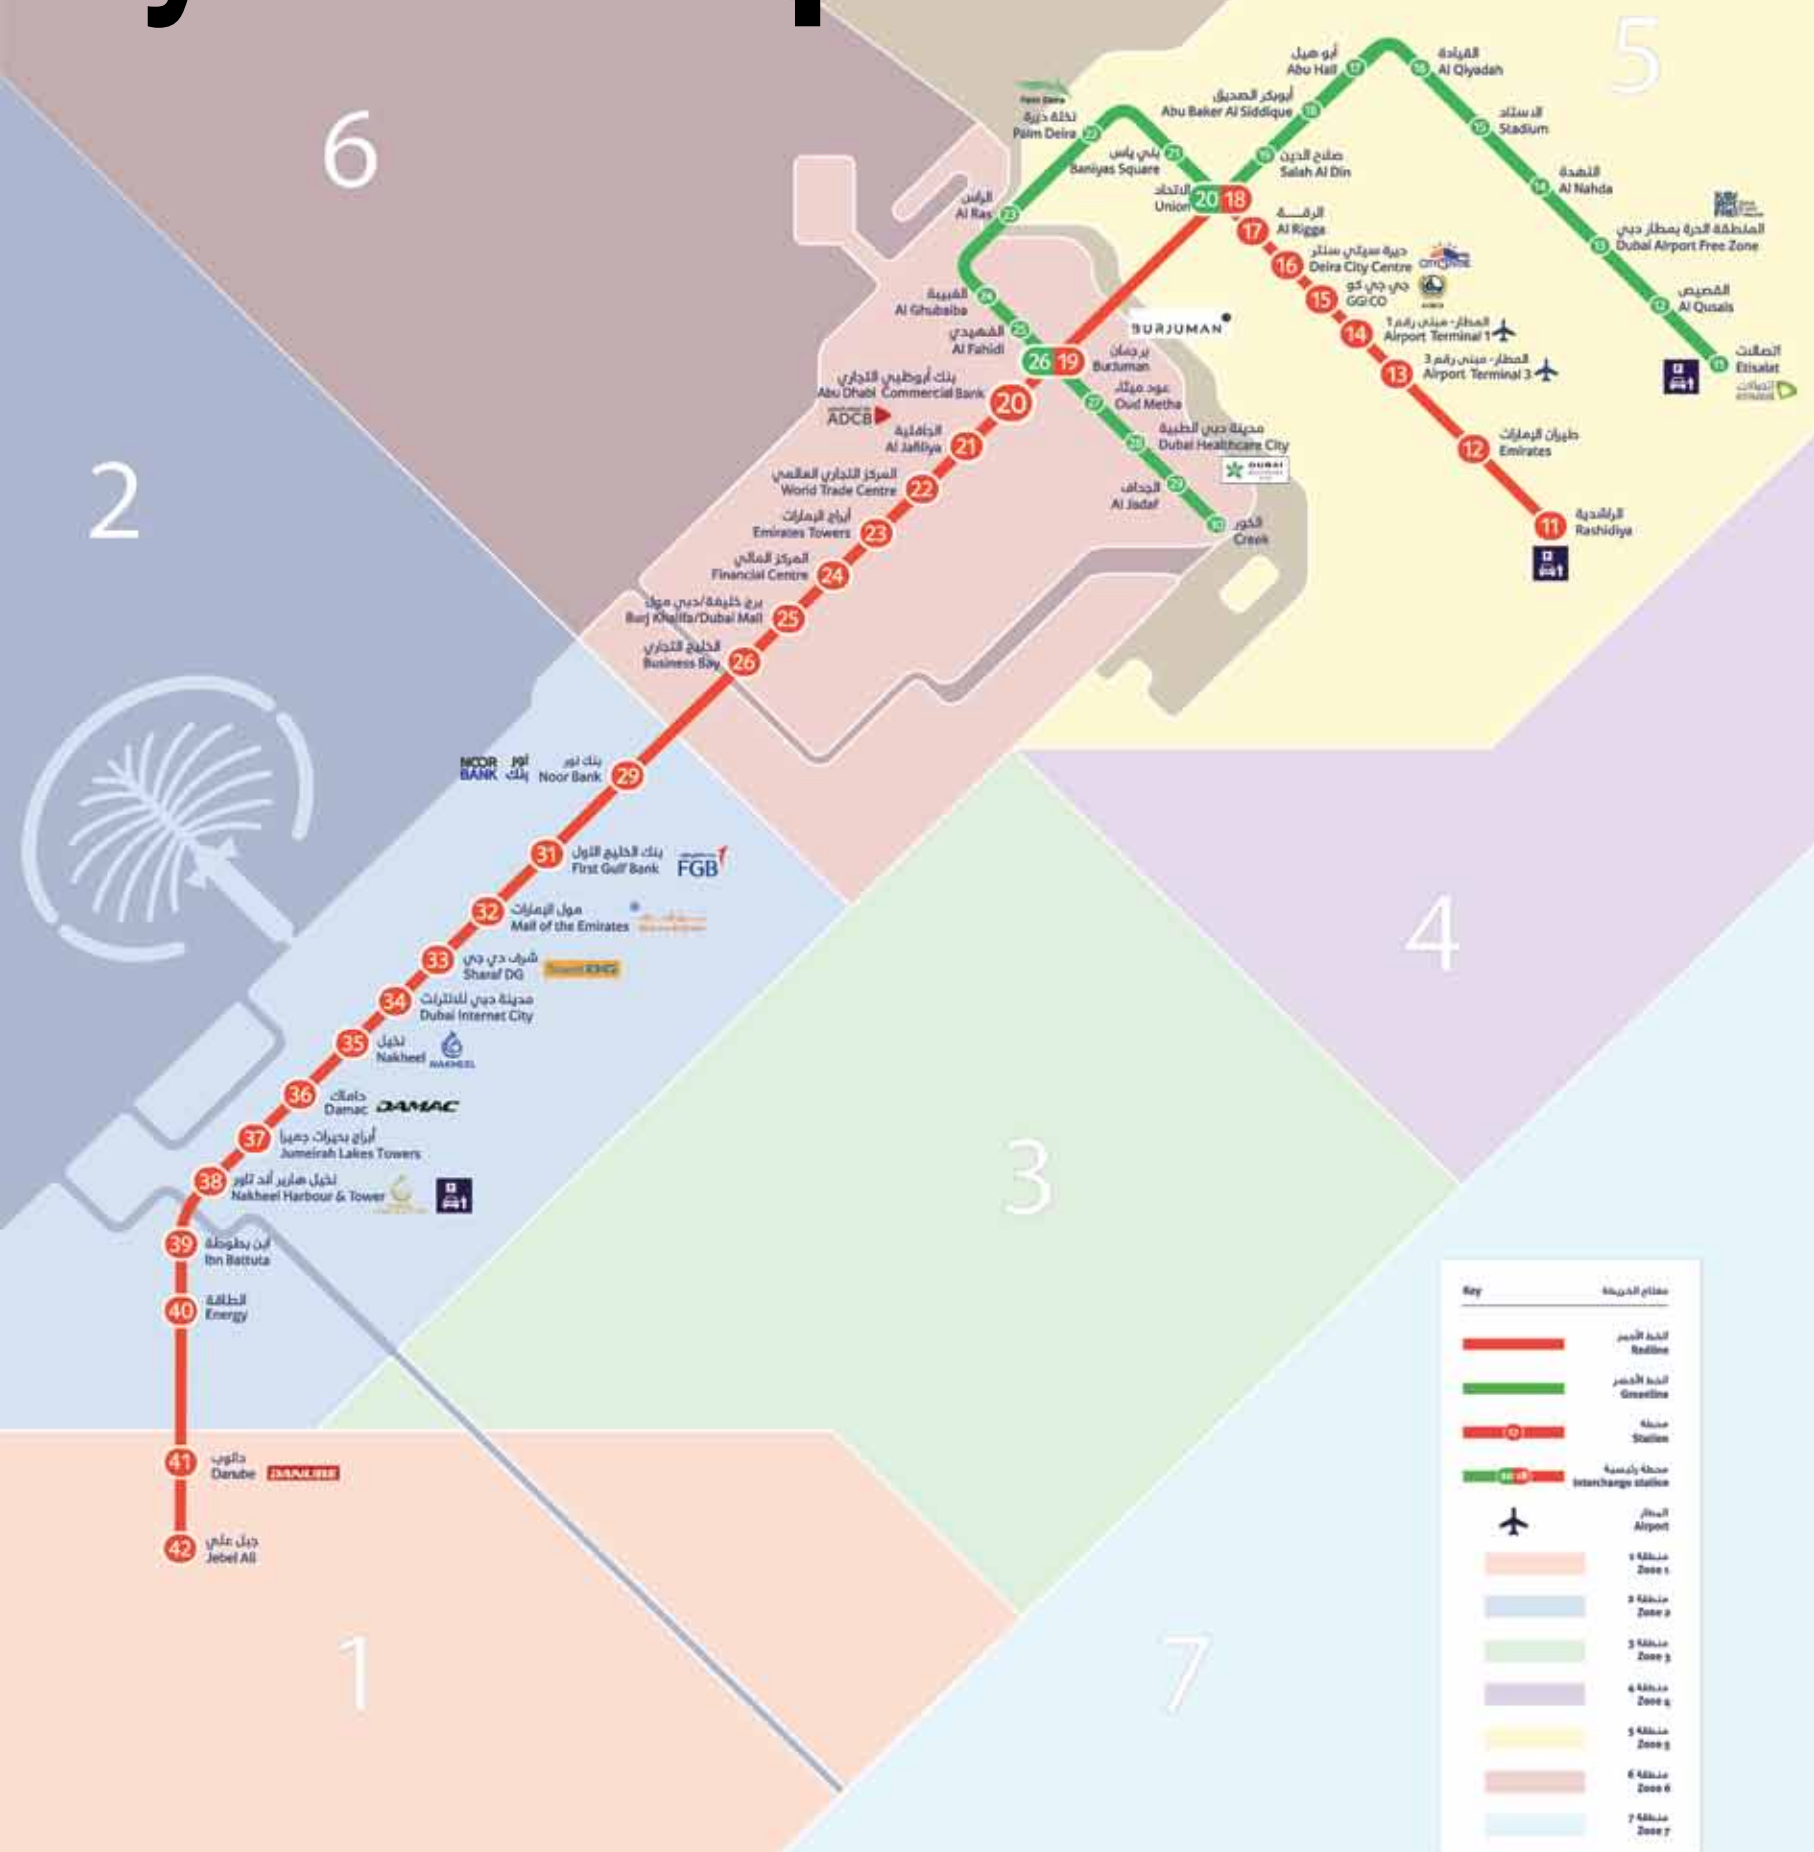

sedan uses no gasoline and emits nothing but water vapor. Not to forget that the vehicle uses the Toyota Fuel Cell System, which features both fuel cell technology and hybrid technology. The Mirai was designed with safety as a top priority and an immediately recognizable design, making you want to hit the roads right away.

Volvo reveals its new XC90

The new 2016 Volvo XC90 has finally been introduced to the world, a vehicle in which when you first see, you'll have to admit that the Swedish automobile company has done a fantastic job. The vehicle has now become a lot more contoured than some Volvos of the past, however it is still more angular than some of the competition's models. The XC90 saw some changes such as the new scalable platform, a new global architecture that emphasizes lightness and energy efficiency. Not to forget the interior which has entirely transformed with top-notch materials. On the technical level, the vehicle boasts a 2.0-litre four-cylinder supercharged and turbocharged engine that develops 320 horsepower and 295 lbs.-ft. of torque.

RTA rolls out best app contest for university students

Initiative coincides with Innovation & Knowledge Week 2015 and aims to complement public transport service offerings.

RTA OFFICIALS AND REPRESENTATIVES OF UNIVERSITIES AND INSTITUTES AT THE MEETING

CONTESTS

The Roads and Transport Authority (RTA) has launched a contest for students of universities and institutes across the UAE inviting them to submit proposals for designing smart apps capable of supporting different RTA services in the context of public transport services. The launch of the contest concurs with Innovation & Knowledge Week 2015.

To this effect, the RTA hosted at its head office, a gathering of representatives of universities and institutes in the UAE in the presence of the head and members of the RTA team supervising the implementation of the comprehensive roadmap set for the RTA's transition to the smart government programme.

The meeting discussed all information related to the apps contest, including conditions, time chart, and types of apps, as well as other important information and details. Also, attending the meeting were Abdulla Al Madani, CEO of Corporate Support Services Sector and Abdulla Al Bastaki, Director of RTA's Information Technology.

“The RTA has opted to give the public, particularly university students, the opportunity to experiment with its smart apps with the aim of embedding the culture of using smart services, and using mass transit means. Moreover, through this experiment, the RTA will be able to identify the points of strength and weakness by analysing feedback, ideas and deliverables of experiments, to be developed by university students.”

Ahmed Hashem Bahrozian, Head of RTA's Team Supervising the Transition to the Smart Government cum CEO of the Licensing Agency at the RTA, explained that the contest would run over three weeks where students of universities and institutes would be engaged in developing ideas and concepts for setting up and designing a host of smart apps. The best of these apps will be selected for addition to the array of smart services offered by the RTA.

“The RTA has opted to give the public, particularly university students, the opportunity to experiment with its smart apps such that these youths can grasp a feel and look of the features and benefits of the smart ser-

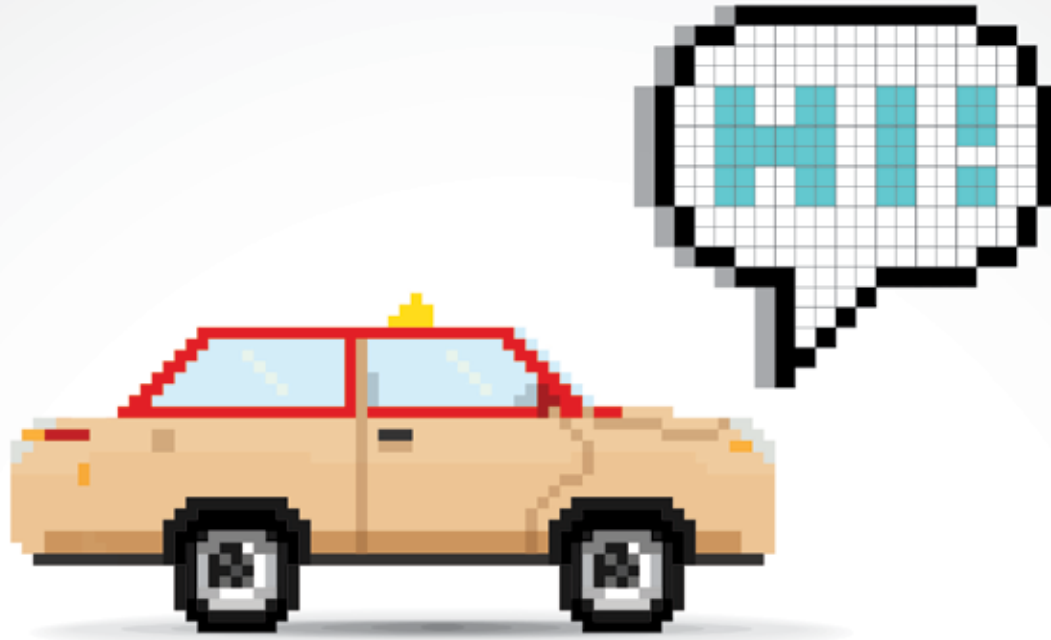

vices with the aim of embedding the culture of using smart services, and using mass transit means. Moreover, through this experiment, the RTA will be able to identify the points of strength and weakness by analysing feedback, ideas and deliverables of experiments, to be developed by university students,” said Bahrozian.

“Through this contest, we are aiming to broaden the channels of cooperation with university students such that they can contribute to smart apps in support of the RTA's service offering as well as the transition towards the smart government programme. This can be undertaken through upgrading innovative apps using Application Program Interfaces

(APIs), and contributing viable practical proposals, which would bring about an added value to the open strategy of the RTA in the field of APIs for smart programmes. The contest also aims to render the RTA the first government entity that applies the APIs.

“Submittals made by students to this contest should include real time transportation information, inquiry about Nol card balance, filing a complaint or suggestion to the RTA, accessing information about the GIS relating to metro stations, public transport stops, and statistical information of Dubai metro and tram. We have set a timetable for running this contest, where registration will start from March 10 and continue up to April 15 this year. Three winners will be announced,” said Bahrozian.

“We, at the RTA, are working tirelessly to broaden and upgrade the scope of our smart apps which encompass a host of important services offered to various spectrums of the community using mass transit means as well as other beneficiaries from the broad range of RTA service offering,” said Bahrozian.

ANSWERS

CROSSWORD

What's in your stars?

The *Read.* astrologer tells you what you can expect over the next seven days.

ARIES

(MAR 21 - APR 20)

The most important relationship in your life is the one you have with yourself, just remember that taking responsibility isn't the same as taking on blame or taking immediate action. Use the middle of the week to figure out what you want.

TAURUS

(APR 21 - MAY 21)

Looking for answers isn't nearly as important as making sure you're asking the right questions. When you really go beyond the superficial, you find that the issues at hand have very little to do with what you originally assumed were important.

GEMINI

(MAY 22 - JUN 21)

No matter how well you plan, you can never be totally sure of the outcome, which is why it's helpful to pay attention to matters in front of you, big or small. A small opportunity could turn out to be much, much bigger than you had envisioned.

CANCER

(JUN 22 - JUL 23)

You can get what you want ... but first you have to figure out what you really want. That's not as easy as it sounds, especially when you try and disentangle what others want for you and what you think you should want from your heart's true desire.

LEO

(JUL 24 - AUG 23)

You excel at starting projects. Just remember that the excitement of starting something can be exhilarating, but true satisfaction comes from seeing it through all the way to the end. Think about all your possibilities and the various ways you can find to complete them.

VIRGO

(AUG 24 - SEP 23)

You have some very specific wishes you'd like fulfilled. That's a special kind of pleasure, when you know just what it is that you want. Be careful during the middle of the week as you pursue these goals, remember you can't control all the elements in your life.

LIBRA

(SEP 24 - OCT 23)

'Integration' is the key word, especially as you explore all the oppositions and polarities within yourself. Walt Whitman was right: We all contain multitudes. Let your assertive, take-charge side come forward. You have more leadership skills than you suspected.

SCORPIO

(OCT 24 - NOV 22)

Smooth, charismatic, in control, these are all adjectives that can be accurately applied to you. Let yourself go with the awkward pauses, false starts and all those bumpy parts of life. Acknowledging them frees up a huge part of your energy.

SAGITTARIUS

(NOV 23 - DEC 21)

Getting your inner critic out of the way during the first half of the week helps you feel more relaxed and creative. Your methods prove to be almost too effective as you find ideas and concepts simply flying out of your mouth.

CAPRICORN

(DEC 22 - JAN 20)

Having someone tell you that you need to relax is one of the most stress-inducing statements ever. So you don't need to relax, but you do need to have more fun. Let yourself be spontaneous and irreverent, it's business time during the middle of the week.

AQUARIUS

(JAN 21 - FEB 19)

It's easy to see that you're creative in one area of your life, but some parts may not be. Identify the areas where you'd like to have more energy, flexibility and inspiration. Make a plan and figure out how you can borrow from one aspect of your life and apply it to the others.

PISCES

(FEB 20 - MAR 20)

Have you been letting someone in your life get away with far too much? At the week's start, it's time to see the truth. You may not need to have a talk with them, but you need to be honest with yourself. Set new standards of behavior for yourself and others.
